

AIRFOIL CONTROL DAMPER
EXTRUDED ALUMINUM BLADE
ULTRA-LOW LEAKAGE • HIGH PERFORMANCE
MODELS: 2010 & 2020

The 2000 Series dampers are Nailor's premium choice for use in high velocity, medium pressure commercial and industrial HVAC systems. They offer unsurpassed leakage (Class 1A) and pressure drop characteristics for superior performance that meets the International Energy Conservation Code maximum leakage for building envelope dampers criteria of 3 cfm/ft² @ 1" w.g. (15.2 L/s/m² @ 0.25 kPa). Model 2020 is an AMCA licensed damper bearing the AMCA Air Leakage and Air Performance Seal. Leakage rating is maintained with airflow in either direction, permitting right or left-hand drive installation.

Standard features include a rugged galvanized steel hat channel frame with die-formed corner gussets for strength, no-maintenance concealed linkage and heavy duty extruded aluminum airfoil blades that combine superior rigidity and deflection resistance with low pressure drop. Unique design compression type seals are keyed and locked into blade extrusion, providing the ultimate in ultra-low leakage and high performance.

STANDARD CONSTRUCTION:

- FRAME:** 5" x 7/8" x 16 ga. (127 x 22 x 1.6) galvanized steel hat channel with die-formed corner gussets for reinforcement and extra strength.
- BLADES:** Airfoil type 6063-T5 extruded aluminum on 5 1/2" (140) centers.
- LINKAGE:** Concealed side type totally enclosed within the frame and out of the air stream. Plated steel.
- BEARINGS:** 1/2" (13) dia. Oilite® self-lubricating bronze.
- AXLES:** 1/2" (13) dia. plated steel double bolted to blades.
- DRIVE SHAFT:** 6" (152) long x 1/2" (13) dia. rigid drive shaft on all single section dampers. A 1/2" (13) or 1" (25) dia. factory installed jackshaft is standard on all multiple section dampers. See multi-section detail 2000 MSI.
- BLADE SEALS:** Silicone. Mechanically locked in place.
- JAMB SEALS:** Cambered stainless steel.
- MINIMUM SIZE:** Single blade (parallel) 8" x 8" (203 x 203).
Two blades (parallel or opposed) 8" x 12" (203 x 305).
- MAXIMUM SIZE:** Single section size is 60" x 72" (1524 x 1829).
Multiple section - unlimited.

TEMPERATURE RANGE

-50°F to 250°F (-45°C to 157°C)

OPTIONS:

- SMP** Side mounting plate for actuator
- FD** Double flanged frame **FDB** FD with bolt holes
- FF** Front flanged frame **FFB** FF with bolt holes
- FR** Rear flanged frame **FRB** FR with bolt holes
- DLO** Lock-on drive shaft
- BS** Type 304 stainless steel bearings
- SSF** Type 304 stainless steel frame
- SSA** Type 304 stainless steel axles
- SSL** Type 304 stainless steel linkage (includes axles & bearings)
- Other _____.

Nailor offers a wide selection of pneumatic and electric actuators for factory or field installation.

Optional lock-on drive shaft support bracket detail.

Dimensions are in inches (mm).
